

**MAYOR'S MESSAGE**

As we celebrate Independence Day and Pioneer Day, our thoughts turn toward the men and women who founded our country and established our valley. Their grit and bravery inspire us to work toward a better society, one that ensures that our communities remain safe, prosperous, peaceful and free. We live in a wonderful, safe community, where we're lucky to know many of our neighbors. The bedrock of our community is civility and unity. May we, as James said, be "swift to hear, slow to speak, slow to wrath."

John F. Kennedy said "So let us begin anew -- remembering on both sides that civility is not a sign of weakness, and sincerity is always subject to proof. Let us never negotiate out of fear, but let us never fear to negotiate. Let both sides explore what problems unite us instead of belaboring those problems which divide us."

As we celebrate our country and the pioneers who settled our valley, let us come together as a community to honor those founders. Let's pledge to foster peace in our community and to remember those who fought to preserve our freedoms. May we seek understanding, civility, and unity as we interact with our community members and fulfill our own civic responsibilities by serving in our community. Together we can preserve peace by being slow to anger, and emulating the selflessness of our forebears by lifting where we stand.

*-Mayor Lyndsay Peterson*

**GOVERNMENT MEETINGS** (Agendas: [pmn.utah.gov](http://pmn.utah.gov))

**The City Council will only be meeting once in July, on Wednesday, July 12<sup>th</sup> at 6:30 p.m. at the North Logan Library.** In July, the City Council will hold a public hearing to solicit feedback regarding a potential COG application to help fund improvements to 600E (2200N to 2500N). The City Council will also be considering updates to the Transportation Master Plan, along with a discussion regarding tiered water rates specific to areas of the city that have secondary irrigation water.

**The Planning Commission will only be meeting once in July, on Thursday, July 13<sup>th</sup> at 6:30 p.m. at the North Logan Library.** The Planning Commission tentatively plans to hold discussions on the following topics: ♦Potential review and recommendation of the Preliminary Plat and Development Plan associated with the proposed Linden Lane Subdivision (~3100N 1200E); ♦Review and recommendation of an application for an amendment to the North Cache Business Park Subdivision on 2500 North (adjusting lot lines and setback requirements); ♦Review and recommendation regarding a proposed Development Plan for a mixed-use commercial project located at approximately 2200N 100E in the City Center Commercial (CCC) zone; ♦Work session discussion regarding a city-initiated zoning text amendment to incorporate residential landscaping requirements for new development. These proposed amendments, if adopted, would allow the city to participate in the Utah Landscape Conversion Incentive Program; ♦Discussion regarding specific requirements for on-site waste water systems (septic) for new dwellings that may not be able to tie into existing sewer infrastructure. Additional items may be discussed in July, depending on applications received throughout the month.

**Green Canyon - 5<sup>th</sup> and 19<sup>th</sup>**

**NORTH PARK POLICE**

Over the last several weeks, the police department has fielded several concerns from the community regarding speeding motorists on streets in the city. The following streets seem to be where the majority of complaints come from: 1800 North from 1600 East to Main Street, northbound and southbound traffic along 1600 East, and eastbound and, westbound traffic along 3100 North. As a response, NPPD officers have been more visible in these areas and in some instances, have pulled motorists over for traveling over double the speed limit (52 mph in a 25-mph zone). We can all do our part to help keep our streets safe by simply slowing down. Traveling at a lower speed can mean the difference between colliding with a sudden obstacle in your path (child, bike, ball, animal, tree branch, etc.) or stopping in time and avoiding an accident.

The North Park Police Department is hosting the National Night Out event on Tuesday, August 1, 2023, at Elk Ridge Park from 6:00 p.m. to 8:00 p.m. There will be booths, activities, and fun events for the kids. Please come and enjoy an evening with our officers! We appreciate the community's support and welcome any questions or concerns. Feel free to reach out to our office at 435-753-7600 or use our Contact Form at [www.northparkpolice.org](http://www.northparkpolice.org)

## NORTH LOGAN YOUTH COUNCIL

We had a terrific end-of-year with the North Logan Youth Council. We were able to help with preparations for the NL Library Summer Reading Kick-off event, and then we were able to be a part of serving the night of the event. We made hundreds of snow cones! We are so grateful for the many hands that made this fun night possible! We really appreciate the youth who served on leadership this year and on the council. They are an amazing group! We are accepting new applications for the upcoming school year. It is for students in North Logan who will be in grades 9-12. We would love to have you join us! Email is [NLYouthCouncil@gmail.com](mailto:NLYouthCouncil@gmail.com) for more information or an application. Happy Summer!

## FAQs

Below are some questions residents have asked about various, current issues in our City, answered by Mayor Peterson:

**Why does North Logan still have water restrictions after we had such a snowy winter?** North Logan relies exclusively on groundwater to meet our city's culinary water needs. It takes two years for our aquifers to recharge so we'll need multiple years of heavy snowfall/rainfall to recover completely from the extreme drought we experienced. We also need to spread out the demand on our system on different times of days so the entire city isn't needing water at the same time.

**Will we be eligible for the state's landscape incentive program for our park strips, side yards, and front yards?**

In order to qualify for the landscape incentives, the city has to adopt ordinances restricting landscaping for new construction in our city. The City Council is reviewing these proposed ordinances and will be considering adopting them in future City Council meetings this summer. Go to <https://utahwatersavers.com/> to find out more about the program. Utah Water Savers is a great resource for water conservation programs, tools, and rebates. Currently, North Logan residents are eligible for Smart Controller Rebates. Smart controllers automatically adjust your watering schedules based on weather conditions and landscaping needs. Additionally, residents are eligible for Fixture Rebates. More information can be found at <https://utahwatersavers.com/NorthLogan>

Residential landscape rebates will also be available soon from Utah Water Savers. Commercial properties are eligible for the North Logan Flip-the-Strip program incentives. Residential landscape rebates will also be available soon from Utah Water Savers.

**How do I know if I'm using the right amount of water for my yard?** Below is a chart that will give you an idea of the approximate amount of watering you should be doing for your size of yard. USU extension offers a program that will help you analyze how much water you should be using on specific parts of your landscape. Go to <https://extension.usu.edu/cwel> to learn more.

Average Water Use - Per Lot, Per Month In the Summer Months (Exterior Watering)	
Lot Size	Gallons
0.65 - 1 Acre	68,000
0.75-0.65 Acre	59,200
0.5 Acre	46,500
0.25-0.33 Acre	32,833

**Why does North Logan continue to approve developments when existing citizens are on water restrictions?**

North Logan hasn't approved new subdivisions that rely on culinary water for exterior use since 2007. While some entitled phases have been built out after that time, the developments the city has approved have all had secondary water sources available for exterior use. At this time, if new applications come in without secondary water, their landscaping/water restrictions will be very stringent.

## DUP - RALPH SMITH CAMP

The DUP Ralph Smith Camp is continuing to look for any family histories or information about the Green Canyon Rock Quarry. This rock quarry was used for the Logan Temple and Tabernacle. We would like to erect a DUP marker at the rock quarry to honor the pioneers who worked there. Please call or text Nancy Potter at (435) 232-5599.

Daughters of Utah Pioneers meet monthly. Text Nancy at (435) 232-5599 for more info on time and location.

## NLC - BUSINESS SPOTLIGHT

Have you ever passed by the large brown brick building, with the green roof, located near the 100 East (1800 N) roundabout in North Logan, and wondered what that business does? The business' name is Central Valley Machine; a company whose founders are Jerry and Audre Wursten. In 1976, they started the business in a storage unit as a one-man machine shop. The company has continuously grown since then into a large precision machining and fabrication shop.

CVM currently has over 140 talented employees whose expertise, skills and industry experience enable them to service many different customers. Using CNC machines, they get to manufacture parts that are used on land, sea, and space. Projects like, SLS-Artemis rocket motors that will send astronauts to the moon and later to Mars. They also machine items used to make the trident missile, satellite launch vehicles, strategic ballistic missiles, military and commercial aircraft, medical devices, amusement rides, and firearms. Many of these parts are critical to our national defense.

## NORTH LOGAN CITIZEN SPOTLIGHT WALLACE KOHLER

Wallace Kohler was born and raised in North Logan. In fact, he grew up in the same home where his mother was

born. He married his wife, Pat, in 1967 and they currently have 18 grandkids (nine girls and nine boys) and two great-grandsons. They have a love of USU basketball, and have been season ticket holders for 56 years!

He says his favorite memory of North Logan is playing baseball as an adult on the Cache Valley League in the 1960s. He ran a self-employed Dutch-oven business for a number of years, while being the Assistant Director of Research Farms for Utah State University.

Wallace has served North Logan in countless ways. He was on the North Logan City Council in the 1970s, where he helped to install the sewer system for the city, and aided in developing Elk Ridge Park, where he also assisted in putting in the first baseball diamond and restrooms. He continues to serve the town he loves by actively serving on their emergency communications team.

Thank you to Wallace and Pat for being such great citizens of North Logan!

Please note that you can also find our newsletter online at: <http://northlogancity.org/>

## STREETS

During the month of July, our streets department will be applying surface treatments to the following roads:

- 1600 East from Logan to Hyde Park
- 800 East from Logan to Hyde Park
- 1700 North from 1200 East to 1600 East
- 2200 North from 1200 East to 1400 East
- 1400 East from 2200 North to 2300 North

Weather permitting, this will take place July 10-14. This surface treatment typically takes 2-3 hours to dry and **NO traffic** can be allowed on the road until the product has completely dried. Cool weather can extend these drying times. Road closures and detours are to be expected. Our crews will also be conducting various maintenance work throughout the city, such as crack sealing, painting, asphalt patching, etc. Please watch for signs and cones shifting traffic lanes as this work takes place.

We appreciate your patience and support as we improve the roads in our city!

## STORMWATER

With the warm weather, we wanted to remind everyone of a few things:

1. Canals are storm-ways too. Please do not dump anything in the canals, to help keep water flowing through them.
2. Dispose of waste in proper containers to help keep pollutants from entering our system. Dirt and grass clippings count as pollutants!
3. Contain all oils from any engine work in drip pans, and contain car wash water as much as possible.
4. If you received a letter from the city about inspecting a pond, please do so and return the filled-out report to the city.

Thank you for all you do to help keep our city clean!

## FIREWORKS - REGULATIONS

Listed below are the regulations for 2023 for the discharge of fireworks, for the following dates and areas:

### East Bench Area Restricted

- \* The discharge of fireworks is restricted in the area east of 1200 East, from the northern city boundary to the southern city boundary.

### What is Allowed:

- \* Class "C" fireworks may be discharged between the hours of 11:00 a.m. - 11:00 p.m., July 2 - July 5 (hours are extended to midnight on July 4); and July 22 - July 25 (hours are extended to midnight on July 24).
- \* Class "C" fireworks are legally sold from June 24-July 25.

We hope you all have safe and happy July!

## COMPLAINTS, CONCERNS, FEEDBACK?

If you go to the city's website at [northlogancity.org](http://northlogancity.org) and click on the "I want to" tab, you will be given an option to "Report a Problem." There are quick-forms for work orders for the following departments: General Comment, Facilities, Parks, Streets, and Utilities. These forms are a great opportunity to report a concern/work order for the City staff to fix!

## CONSTRUCTION UPDATES

For updates on the City Offices and other city construction projects, please go to the link below for our city website for more info:

<http://northlogancity.org/construction-projects/>

## GARBAGE

**GREEN WASTE FEE:** North Logan is currently working with Logan City regarding the additional fee that was being charged for the Green Waste Dumpsters that used to be at Elk Ridge Park. You should start seeing slight reductions in your garbage bill this month, as this service is no longer provided by Logan City.

**BROKEN GARBAGE CAN?:** Please check your refuse cans (garbage, recycling, green waste) and if they are broken or damaged, please call Logan City Environmental for a replacement can at 435-716-9755.

## WATER - SUMMER OUTLOOK

### North Logan's Water Outlook for Summer

This past winter has brought an abundance of snow to our mountains. Snowpack is expected to exceed ~150% of the yearly average. Despite the above-average snowfall and rain from this past winter, it will likely not be enough to alleviate our long-term drought conditions in North Logan. Snow runoff generally takes about two years before it replenishes our underground aquifers, which is where we receive our culinary (city) water. It is still important to remain cautious and calculated about how we use water in North Logan this summer.

### **What to Expect:**

Water restrictions will remain in effect this summer. Water restrictions help tremendously in enabling us to meet the growing demand for water during the summer months. Water restrictions also help to promote water conservation by encouraging residents and businesses to be more mindful of their water usage. By implementing a watering restriction schedule, North Logan can effectively cut water demand in half, ensuring that the daily summer water demand is met.

North Logan has begun drilling and constructing our 7<sup>th</sup> well this past winter. This new well is expected to expand our water production, and help to mitigate a portion of the growing demand of our city. In addition, over the next year we will begin construction on more underground storage reservoirs, which will significantly aid in meeting the demands of culinary water.

New developments in North Logan are now only permitted to utilize secondary (canal water) for exterior watering, or in areas where extremely strict water restrictions are implemented.

When you must water, please abide by the address watering schedule below:

### July's Water Restrictions:

Homes utilizing culinary (city) water for lawn watering are required to abide by the 3 days per week watering schedule as follows:

**ODD ADDRESSES: Mondays, Wednesdays, Fridays**

**EVEN ADDRESSES: Tuesdays, Thursdays, Saturdays**

**No watering allowed on Sundays**

Properties that have access to culinary (city) water and secondary (canal) water for lawn watering are required to use secondary water ONLY. Secondary water users will receive their schedule via their canal companies.

### **Flip the Strip:**

As part of our water conservation strategy, North Logan will be implementing incentives to swap out the grass in your park strip and replace it with waterwise landscaping. Water utility bill credits will be available for participants. Please watch the city's website at [northlogancity.org](http://northlogancity.org) and social media for details in the coming months. Initially, this will be for commercial only, with residential to follow later.

### **2022 Consumer Confidence Report:**

We are committed to ensuring the cleanest and safest water available. The Consumer Confidence Report for 2022 is now available. It can be found at [northlogancity.org/consumer-confidence-report/](http://northlogancity.org/consumer-confidence-report/)
