North Logan has been my home for over 38 years. I grew up here and am so grateful my wife and I could raise our children here. The ties I have to North Logan and the love I feel for this community run very deep. As citizens, we are incredibly lucky to live in a place of such natural beauty and resources surrounded by truly excellent people. My years of previous service on the City Council has given me a wealth of insight and experience. I hope to continue to work unitedly with my fellow council members to make decisions that will protect North Logan's unique attributes while preparing for future generations.

As a city council member, I stand for the following:

BALANCED GROWTH

- Promote growth that safeguards the positive elements of our community within the city's master plan while protecting individual property rights

SMART ZONING & LAND USE

- Advocate for zoning regulations that guide development in a way that preserves green spaces and promotes efficient land use
- Support mixed-use developments to create vibrant, walkable neighborhoods
- Ensure citizens may participate in the planning process by sharing their views and ideas they want to see in the community
- Foster transparency and inclusivity in decision-making

AFFORDABLE HOUSING

- Encourage the inclusion of affordable housing units in new developments to combat the housing crisis
- Support policies and zoning which will help make home ownership more affordable

ECONOMIC GROWTH

- Continue to work to attract new commercial business to North Logan
- Continue to support existing North Logan businesses by working with business leaders, owners, and employees
- Ensure the city runs on a conservative, balanced budget, remembering that our citizen's tax contributions deserve the most careful consideration and respect

WATER MANAGEMENT

- Continue to develop sustainable water management practices, resources, and facilities to ensure water availability
- Promote water conservation and responsible usage

Thank you for allowing me to be a part of North Logan's policies and planning over the years. My goal is to continue to promote this shared vision of accountability and opportunity with city officials, departments, and community members. I am optimistic about the future of our city and pledge to continue working for the best interests of North Logan citizens.
