

MAYOR'S MESSAGE

As we move towards fall, I hope you all had a memorable summer enjoying the community events, outdoor activities, and opportunities to connect with neighbors. It was nice to watch the sense of unity and joy that permeated our city during the summer months.

With September upon us, I hope everyone is able to take full advantage of the remaining warm days and enjoy our parks, trails, and local events. And, as the school year has just begun, we also have a great opportunity to support our students and educators by attending their events, and being more aware of them on our streets as they go to and from school. Additionally, keep an eye out for upcoming fall festivals and community gatherings. We have some fun ones coming up!

-City Council Member Joni Kartchner

GOVERNMENT MEETINGS (Agendas: pmn.utah.gov)

The one City Council meeting in September will take place on **Wednesday, September 18th at 6:30 p.m., in the City Council Chambers at the North Logan City offices** (2525 N 600 E). In September, the City Council will hold a public hearing to consider the issuance of bonds for the water system. There will be an additional public hearing to consider an adjustment to the municipal boundary at 3100N 1200E. There will also be updates regarding the City Center study.

The Planning Commission will only meet once in September on **Thursday, September 19th at 6:30 p.m. in the Council Chambers of the North Logan City offices (2525 N 600 E).**

The Planning Commission tentatively plans to hold workshops, public meetings, or work session discussions on the following topics: ♦text amendment to the City's subdivision and zoning ordinances regarding secondary water requirements for new development; and, ♦text amendments to refine development requirements within geologic hazard areas.

General Plan Public Workshop

The Planning Commission will be hosting a Public Workshop for the General Plan rewrite project on Tuesday, September 3rd. This event will be held at the new large pavilion at Meadow View Park, just south of the pickleball courts, from 4:00 p.m. until 7:00 p.m. Topics to be reviewed by the public include a draft Future Land Use Map for the city as a whole, along with a more acute draft map for the City Center area.

To follow along with progress on the General Plan Rewrite project, or to submit public comments or surveys regarding the plan, please visit the project website: NLCPLAN.ORG

~~~~~  
If you'd like to receive the meeting agendas via email, please send an email requesting so to [marie@northlogancity.org](mailto:marie@northlogancity.org) to be added to the list.

**NORTH PARK POLICE**

Welcome back students! As school starts up again, North Park Police would like to bring to your attention the safety rules regarding school crosswalks. Many of our students bike or walk to school and use the crosswalks daily. Please remember:

**41-6a-1002: Pedestrians' right-of-way.**

- 1) The operator of a vehicle shall yield the right-of-way by slowing down or stopping if necessary:
  - a. To a pedestrian crossing the roadway within a crosswalk when the pedestrian is on the half of the roadway upon which the vehicle is traveling; or,
  - b. When the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.
- 2) The operator of a vehicle approaching a school crosswalk shall come to a **complete stop** at the school crosswalk if the crosswalk is occupied by a person.
- 3) If a vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the operator of any other vehicle approaching from the rear **may not overtake and pass** the stopped vehicle.

Please follow the directions of our crossing guards. Our crossing guards play a critical role in helping our students remain safe as they walk or bike to school. The biggest threat to our students and crossing guards is from vehicles turning left or right. If you are in a hurry, consider taking an alternate route and avoiding the crosswalks at the start and end of school.

-Kent Goodrich, Chief of Police

**CACHE VALLEY REMEMBERS**

The 9/11 Project provides invaluable educational opportunities for young and old alike. Guests walk through an immersive timeline of events leading up to and through the tragic attacks of September 11, 2001. For those who lived through those events, the Project serves as a reminder of what happened. For those not yet alive in 2001, this event provides an insight into that tragedy, and an awareness of the legacy of patriotism and brotherhood that rose out of the ashes that day.

The 9/11 Project is a community event from the Major Brent Taylor Foundation commemorating the events of September 11, 2001. This incredible community event will feature an immersive exhibition commemorating the events of September 11<sup>th</sup>, an educational career fair highlighting first responders and other affected vocations, a touch-a-truck experience, a fun run, a field of flags, and finally, live music and food trucks to encourage our local community to connect and come together.

The entire event will take place in North Logan at the Hansen Sports Complex and the surrounding fields from September 11<sup>th</sup>-14<sup>th</sup>, 2024. This is a free event open to the public. For more information please go to: [cachevalleyremembers.com](http://cachevalleyremembers.com)

## STREETS

As the weather begins to cool off in September, our crew will begin crack sealing the roads again. We do not plan to have many road closures with this project, and those we do have should last no longer than a couple of hours. Please avoid driving on freshly applied crack seal as it needs time to cure before traffic is reintroduced to those sections.

Asphalt repair will continue throughout this coming month. With this task, the crew is simply replacing failed spots in the road. This project is very non-invasive to traffic, however, be aware of traffic cones, signs, etc.

Our crew is also working to replace sidewalks that have been lifted by tree roots, etc. When replacing these sections of concrete, it is necessary to remove the tree roots that are causing the issue. If this is not done, then the roots will continue expanding and will lift the new sidewalk to the point of needing repairs within a few years. Our team will do everything possible to preserve the health of the trees, however, root removal is necessary for continued pedestrian safety.

We will also be touching up all paint markings, such as crosswalks, stop bars, etc., in the city. This is a time-consuming process where our crews will need to cone off sections of the road to paint. These cones will remain in place until the paint has dried enough to allow traffic to drive on it. Please be mindful and respectful to these areas while they dry, both in respect to our workers, and to prevent paint from getting on your vehicles. We appreciate your cooperation!

## STORMWATER

Here are some helpful tips about lawn care. September is the ideal time to apply fertilizer. Follow the tips below and make sure to keep lawn clippings and fertilizer out of the gutters:

1. A common myth is that more is synonymous with better when discussing lawn health. That isn't always the case! Someone should only use two pounds of nitrogen per 1,000 square feet. Implementing this practice will give you the best results and save you money.
2. Leave grass clippings on the lawn to reduce the need for fertilizer and promote a more full and healthy lawn.
3. Spot-treat weeds when you can't hand-pick them, and don't soak the entire area.
4. Know the weather ahead and don't apply fertilizers or pesticides when rain or other weather events are forecast in the immediate future.
5. Sweep driveways and sidewalks rather than wash with a hose.
6. For more information, visit <https://cfpub.epa.gov/npstbx/files/riswlawn.pdf>

We appreciate everyone's support!

## SEWER

Residents, please remember, the only item allowed to go into the city's Sanitary Sewer System aside from natural waste is toilet paper! Please **DO NOT** flush items such as wipes ("flushable" ones actually *do not* break down in the sewer system), feminine hygiene products, cleaning wipes, paper towels, trash, cloth of any kind, toys, diapers, Q-tips, grease, medications, etc. Please dispose of these products properly in solid waste/trash bins.

## PARKS

**Last Day for the Splash Pads!** Please note that the last day the North Logan City Splash Pads will be running for the season this year is Mon., September 2<sup>nd</sup>, and will be *closed* after that day. We appreciate your patience as we worked to fix issues with them this year, which we realize caused interrupted service, at times. We hope you were able to enjoy them this year, and look forward to seeing you out there again next year for more summer fun!!

## FROM THE MAYOR

North Logan is honored to host *The 9/11 Project* at the Hansen Family Sports Complex (220 E 2850 N) from September 11<sup>th</sup> - 14<sup>th</sup>. This immersive event is geared toward helping us remember the events of 9/11, and to reignite the patriotism and community spirit of the days following. It will also feature a career fair, a touch-a-truck exhibit, live music, and food trucks. Community leaders, schools, first responders, local businesses, and volunteers have been working hard to make this event a success.

## NORTH LOGAN YOUTH COUNCIL

We hope everyone had a terrific summer! The summer highlight for the North Logan Youth Council was being involved in our annual 24<sup>th</sup> of July celebrations. We were able to be in the parade, help with games at the park, and then return later to help with more games and the obstacle course before the movie on the lawn. We love being part of such an incredible and positive community with a proud, rich history. We are accepting applications for this new school year. For any youth interested in applying (9<sup>th</sup>-12<sup>th</sup> grades) email us at [nlyouthcouncil@gmail.com](mailto:nlyouthcouncil@gmail.com) or text Camille Bell at 435-881-9493. It is a great place to be involved!

*-NLYC Advisors: Joy Bouck, Camille Bell, Kathleen Nash, and Ann Reese*

## CONSTRUCTION UPDATES

For updates on the Community Center and other city construction projects please go to the following link for our city website for more info: <http://northlogancity.org/construction-projects/>

## SEPTEMBER WATER RESTRICTIONS

Water Restrictions will remain in effect this summer. Water restrictions help tremendously in enabling us to meet the growing demand for water during the summer months. Water restrictions also help to promote water conservation by encouraging residents and business owners to be more mindful of their culinary water usage.

When watering, please abide by the address watering schedule below. Properties utilizing culinary (city) water are permitted to water up to three (3) days per week following this schedule:

### ODD ADDRESSES:

Mondays, Wednesdays, Fridays

### EVEN ADDRESSES:

Tuesdays, Thursdays, Saturdays

### No watering allowed on Sundays.

Properties that have access to culinary (city) water and secondary (canal) water for lawn watering, are **required** to use **secondary (canal) water ONLY**. Secondary water users will receive their schedule via their canal companies.

### Landscape Incentive (Flip the Strip Program):

Are you ready to transition your lawn/yard and/or park strip into a water efficient landscape? GOOD NEWS! The Utah Division of Water Resources has recently approved North City residents to participate in their landscape conversion incentive programs. Commonly referred to as "Flip the Strip," you can now receive a reimbursement for a portion of expenses incurred converting your park strip or yard into a water-wise landscape! Visit: <https://www.utahwatersavers.com/division-of-water-resources-landscape-incentive-program-details> to learn about the steps required to become eligible at your property.

Visit: <http://utahwatersavers.com/>, enter "North Logan City" as your water provider, set up an account, and submit plans for your landscaping conversion!

**Consumer Confidence Report:** We are committed to ensuring the cleanest and safest water available. The Consumer Confidence Report for 2023 is now available. It can be found at [northlogancity.org/consumer-confidence-report/](http://northlogancity.org/consumer-confidence-report/)

## LEAD SERVICE LINE INVENTORY

City staff has completed the Lead Service Line Inventory verification process required by the state and the EPA. We have found zero lead service lines in North Logan! Our report was submitted to the state in August where they approved it, months ahead of the national deadline. In fact, North Logan was the first town in Cache Valley to successfully be approved, and one of the first few dozen in the state!

We would like to thank the hundreds of households who submitted information to us. Without you, this process would have taken significantly longer. But because of you, we as a community were successful!

Scan this QR code to learn what we discovered at your property. Please note that statistical analysis was used for a portion of properties in North Logan, specifically related to homes built prior to 1970. If a property does not have a listed material type, it was analyzed to be a material that is **not** lead. If you have any questions about the inventory process or how your home type was determined, please email [water@northlogancity.org](mailto:water@northlogancity.org)
